Appendix 1 - Capital Works

- 1.** Subject to the exceptions in paragraph 2, “Capital Works” means the construction work in respect to the Project carried on or near the lease or leases held by the Owner in the Peace Country.
- 2.** Capital Works shall specifically exclude the following:
 - (a)** construction work in respect to any contracts awarded
 - (i)** to non-Building Trades affiliated contractors, or
 - (ii)** prior to the date this Agreement has been entered into unless specifically included by the Owner or Managing Contractor.
 - (b)** work performed by the Owner’s own forces, contractors and their subcontractors on activities associated with Plant operations and maintenance.
 - (c)** project-related work performed, unless otherwise designated by the Owner for any supply or distribution pipelines
- 3.** “Capital Works” pursuant to this Agreement will be deemed to be completed when the Owner has assumed possession of such work or component portion. If a contractor performs construction work in respect of an aspect of the project after it is assumed by the Owner, then the Owner may choose to declare that this agreement also applies to that work.
- 4.** The Owner (or Managing Contractor) may amend this schedule in its discretion.

Appendix 2 - Other Issues

1. **Lay off Protocol:** - In the event of a layoff affecting Contractors working on the Project covered by this Agreement, the following protocol will be followed;
 - (a) **Voluntary Lay-Offs** – Workers on the Project may be offered the opportunity to exercise the option to accept a voluntary lay-off when there are lay-offs planned on the Project affecting their trade. In such cases this option will be offered to Local Union members first, travel card members second, and workers on permits third.
 - (b) **Leave of Absence** – As another option, workers on the Project may be offered the opportunity to exercise the option to take a Leave of Absence from the Project when there are lay-offs planned on the Project that would affect their trade. In such cases this option will be offered to Local Union members first, travel card members second, and workers on permits third. Should the leave of absence extend beyond fourteen days in duration the Worker may request a lay-off.
 - (c) **Transfers** – In a situation where one contractor is planning to lay-off workers on the Project and workers in the same trade working for other contractors working on the Project have opted to accept a Voluntary Lay-Off or Leave of Absence as stipulated in (a) or (b) above, or in cases where there are unfilled calls for workers in that trade on the Project, transfers between contractors covered by the terms and conditions of this Project Agreement will be allowed, except that there will be no transfers between the construction site(s) and fabrication shops. The offer to accept a transfer under these circumstances will be made to Local members first, travel card members second, and workers on permit third.
 - (d) **Lay-Offs** – Except as modified above, all lay-offs will be carried out in accordance with the terms of the applicable Registered Provincial Collective Agreement. It is understood that where a contractor on the Project is planning a lay-off of workers, workers in the trade where the lay-off is planned who are working for that contractor on the Project under a Labour Market Opinion will be subject to first lay-off unless they are able to be transferred under Clause (c) above.
 - (e) **Delays in Transfers** – When a transfer under (c) above is planned but time is required to complete the transfer, the affected worker(s) will be allowed to stay in camp or remain on Subsistence, at no cost to the worker, until the completion of the transfer to a maximum of 7 calendar days unless an extension is granted by the Owner or Managing Contractor or party with whom the camp manager is contracted.

2. **Supervision:** It is in the interests of the Parties to this Agreement to promote the training and development of foremen and other supervisors to manage the extensive amount of work contemplated for Alberta. Training and mentoring of supervisors will be facilitated and encouraged on the Project within the scope of this Agreement. Workers showing leadership potential will be encouraged to accept the role of Foreman as needed on the Project and will be provided with the training and mentoring to make them successful. Where it is not feasible to meet the needs for supervision on site from within the ranks of Alberta tradesmen, or in those situations where there are special language situations that need to be considered, the Parties to this Agreement will establish a protocol for insuring that supervisory needs are met having due regard for the need to maintain safety, productivity, quality, and a working environment that will promote the attraction and retention of workers.

Further work on the protocol for meeting Supervisory needs, or amendments as necessary to the Lay-Off Protocol above, may be carried on through the Liaison Committee(s) established for the Project or such other sub-committee as the Parties may agree to utilize.
