LETTER OF UNDERSTANDING #1 RE: COMPETITIVE INITIATIVE (CI) PROCESS

Between

Construction Labour Relations – An Alberta Association

Operative Plasterers (Provincial) Trade Division

(the Trade Division)

And

Operative Plasterers' and Cement Masons'

International Association of the United States and Canada, Local Union 222

(the Union)

Hereinafter together referred to as the Parties

Whereas the Parties have entered into a Collective Agreement, pursuant to Registration Certificate #64, which shall remain in effect from May 4th, 2025 through April 30, 2029, and

Whereas the Parties understand that some provisions of the Collective Agreement may not be competitive for projects, and

Whereas the Parties undertake to follow a consistent and timely process on requests to amend the terms of the Collective Agreement for bidding purposes when non-union or alternative union companies are known to be bidding on the same project.

It is Agreed that the Competitive Initiative (CI) Process is as Follows:

1. The CLRA office will submit a CI request to the Local Union Business Manager.
 - a. Requests will be made by email attaching the COMPETITIVE INITIATIVE REQUEST FORM, including such relevant information as the client's name, project name, location, hours by trade, scope of the work, etc. and the terms and conditions of the request.
 - b. CLRA will endeavor to provide this request as far in advance of the bid due date as possible.
 - c. CI requests will be restricted to provide equitable terms to non-union or alternative union terms. Every option will be examined before wage rates are considered.
 - d. When exclusively CLRA contractors are bidding on the project, CI terms will not be requested or provided.
2. The Business Manager shall respond to the request within 5 calendar days of the request.
 - a. Where clarification is needed or questions arise on the request, the Business Manager will make inquiries through CLRA, and a meeting will be scheduled to address these issues. Where multiple unions are involved, CLRA will coordinate the meeting with the effected unions. The parties agree to meet in a reasonable timeframe to provide the clarification needed.

- b. The Parties agree to jointly examine solutions and come to an agreement that will provide an opportunity for the CLRA contractor to have equitable terms to non-union or alternative union companies bidding the work.
 - c. The Parties affirm that agreement by email correspondence shall be legally satisfactory for the purpose of this process. A template email will be used for consistency, accuracy, and efficiency.
- 3. All contractors of the Trade Division can utilize the CI terms when bidding on the same project.
 - a. CLRA will send a communication to the Trade Division contractors advising that if they are bidding on a Project, they may contact the CLRA or Union office to inquire about the terms.

Agreed, and signed this 4th day of May, 2025 on behalf of the Parties hereto:

ARTICLE I-2: HOURS OF WORK

- I-2.01** The following clauses are designed to identify the regular and overtime hours of work and are not to be construed as a guarantee of hours of work per day, per week or with respect to days in any week.
- I-2.02** The regular working week shall consist of 40 hours of employment Monday to Friday.
- I-2.03** A non-paid lunch break of a ½ hour duration will be taken halfway through each shift.
- I-2.04** There shall be a paid break of 10 minutes in each half of an 8-hour shift and a paid break of 15 minutes in each half of a 10 hour shift. There shall be a break of 10 minutes every 2 hours thereafter.

ARTICLE I-3: SHIFTS AND OVERTIME

- I-3.01** For out-of-town work where the project will be concluded in 2 working days or less past the end of the regular shift, Employee(s) shall have the option of working to complete the job at the regular shift rates for the project.
- I-3.02** When an Employee loses a regular day, through implementation or termination of shift work, the Employee shall be paid a regular working day pay for the day lost.
- I-3.03** When 10-hour shifts are worked, in lieu of the work breaks and lunch breaks provided herein, the Employer shall have the option of scheduling 2 breaks of a ½ hour each, paid at the applicable rate, approximately equally spaced in the 10-hour shift. In the event an Employee is not able to take a break, the Employee shall be paid at applicable overtime rates for the missed break. When the hour before and the hour following the missed break are at straight time, time and one half shall be paid for the missed break. This option shall not be applicable to compressed work weeks for which workdays are regularly scheduled in excess of 10 hours. A change in the scheduling of breaks will normally be communicated to the affected Employees prior to the end of the work cycle before the change.
- I-3.04**
- (a) Any regular shift with a start and end time not falling within the time frame of 7:00 a.m. to 5:30 p.m. shall be subject to a shift premium of \$4.00 per hour (\$4.50 Effective May 3rd, 2026) for the entire shift.
 - (b) The Employer may vary the start/quit times by changing the scheduled starting time up to 2 hours at their option. Variances beyond 2 hours shall be agreed mutually by the Employer and the Union and the consent to variance will not be unreasonably withheld.

Overtime

- I-3.05** All hours in excess of the regular scheduled hours per day, and 40 hours per week until a break of 8 hours occurs, shall be considered overtime. All overtime during the regular work week is to be paid at time and one half the Employee's regular hourly rate of pay until a total of 50 hours in any 1 week is worked and after 50 hours the overtime shall be double the Employee's regular hourly rate of pay. All hours worked on Saturdays and Sundays shall be paid at double the hourly rate of pay

10 days on 4 days off (10&4)

- I-3.06** When a 10 day on and 4 day off schedule is utilized, overtime on Saturday and Sunday that fall in the middle of the schedule will be optional. Employees will be required to give at least 3 working days' notice of their intention not to work such overtime. Failure to provide the required notice and to report for work shall be considered absenteeism. Exercising this option will not preclude an employee's opportunity to work other premium days when available.

4 days of 10 hours

I-3.07 A compressed work week of 4 days of 10 hours may be worked at straight time rates. The 4 days of 10 hours must be worked consecutively. The first 2 hours of overtime on the 4 days of 10 hours schedule shall be paid at time and one half the regular hourly rate of pay. All others are to be paid at double the regular rate.

- I-3.08**
- (a) If the 4 days of 10 hours are being worked and 1 or more days of work are lost during that week due to inclement weather, the Employer may schedule Friday as a make-up day. Hours worked on the Friday are to be paid at straight time rates up to 10 hours in the day or until the 40 hours [reduced appropriately when a statutory holiday occurs during that week] in the week have been worked after which overtime provisions apply. Employees shall not refuse to work the make-up day and the Employer shall not force an Employee to work if said Employee has a legitimate reason for not working. The Union and the Employer jointly shall determine whether the reason is legitimate.
 - (b) In circumstances where Friday is a regular scheduled overtime day, **Clause I-3.08(a)** will not apply and applicable overtime rates will apply as per **Article 12**.

I-3.09 Provisions for Meals on Overtime

- (a) When Employees are required to work extended daily hours in excess of 11 hours, the Employer shall be required, following the 10th hour, to provide a meal at no cost to the Employees, for those involved. One-half hour at the regular hourly rate of pay shall be allowed for the consumption of the meal. This break shall occur not more than 5 hours after the last mealtime. Should an Employee be requested to continue work, then an additional hot meal shall be supplied every 4 hours under the same conditions above.
- (b) Should an Employee not be provided with meals as set out in the preceding paragraph, they shall receive an allowance of \$50 in lieu of the meal and the time to consume the meal.
- (c) Where a shift in excess of 11 hours but not longer than 12 hours is worked, and when camp accommodations are provided and a meal is provided at the end of the shift, no meal allowance shall be payable. When such shifts are worked, break times may be adjusted for efficiency and reasonableness. In such cases the Union will be notified prior to the breaks being adjusted.
- (d) Where a supervisor is required to:
 - (i) start up to 1 hour earlier, or
 - (ii) finish up to one 1 hour later, or
 - (iii) start up to ½ hour earlier and finish up to ½ hour laterthan the Supervisor's crew, for the purposes of organizing work or facilitating a transition to another shift, the provisions of **I-3.09(a)** will not apply unless those provisions are applicable to the rest of the crew.

ARTICLE I-4: LOCAL RESIDENTS, TRANSPORTATION, ACCOMMODATION,

Local Residents

- I-4.01** (a) A local resident is an individual who resides within a 75-kilometer radius of the centre of a job site which is beyond daily commuting distance from the Geodetic Monument, and has resided within such radius of the site for a period of not less than 6 months prior to being engaged on the project. It is understood that the hiring of local residents shall be subject to the hiring procedures and prerogatives set out in this Collective Agreement.
- (b) **Process for Determining Local Status**
Where a question arises as to whether a candidate for employment qualified as a local resident, the designated representatives of the Employer and the Union shall determine the individual's acceptability as to residency only. The Consultative Committee may provide direction in addition to the process set out below to determine the "real residency" test for those people wishing to be designated as a Local Resident.
- (c) **Process for determining "Real Residency"**
In making the determination as to whether a person is a "Local Resident" for the purposes of the Collective Agreement, the following factors will be taken into consideration:
- (i) the dwelling place of the person's spouse and dependents;
 - (ii) personal property and social ties to the community;
 - (iii) residential ties elsewhere;
 - (iv) permanence and purpose of residence in a particular community;
 - (v) documentation of;
 - (1) property tax and rent receipts, telephone, gas or other utility receipts;
 - (2) driver's license
 - (3) vehicle registration or pink card;
 - (4) income tax;
 - (5) unemployment insurance documents;
 - (6) voters' list registration;
 - (7) Employee benefit fund administration registrations.
- (d) Local Residents residing within a 45-kilometer radius of the job site shall not be entitled to receive transportation or vehicle allowance, travel allowance, initial and return travel allowance, room and board or subsistence, or camp accommodations, or rotational leave provisions.

Local Residents residing between a 45 kilometer radius and a 75 kilometer radius of the job site shall not be entitled to receive initial and return travel allowance, room and board or subsistence, or camp accommodations, or rotational leave provisions, but shall be paid a travel allowance of \$36.00 per day worked to cover transportation expenses and travel allowance, or if transportation is supplied by the Employer, a daily travel allowance of

\$19.00. For the purposes of determining local residents in the Fort McMurray area, residents of Anzac and Sapræ Creek will be considered to be residents of Fort McMurray for projects north of Fort McMurray and residents of Fort McKay will be considered to be residents of Fort McMurray for projects located south of Fort McMurray.

- (e) Where a Camp Kitchen is established and where all Employees, generally, on the project who are not Local Residents attend at the Camp Kitchen to eat their lunches, a Local Resident Employee shall be provided the same noon meal arrangements without cost to themselves. In those instances where bagged lunches are provided to Camp Residents and hot soup is delivered to the jobsite, Local Residents shall be entitled to receive hot soup.
- (f) Where a Local Resident Employee is required to work overtime, they shall be entitled to overtime meals in accordance with this Collective Agreement.
- (g) The Parties agree that the early participation of qualified Local Resident Employees in work undertaken under this Collective Agreement is most desirable and will be strongly promoted. In support of this the Union agrees that locally qualified tradespersons will be given an opportunity to join the Union and will be dispatched to the job when positions become available, subject to the mutual agreement of the Parties.

The Parties to the Collective Agreement agree that they will undertake a monitoring process to evaluate the employment status of Local Resident Members residing in the Wood Buffalo region, and such other regions where a client expresses a concern during the term of the Collective Agreement. If it is determined that there is an underutilization of Local Resident Members, the Parties will meet and address the issue.

Daily Commuting

I-4.02 The following conditions will apply on jobs within daily commuting distance of the Geodetic Monument, and on jobs from which Employees commute daily from temporary accommodation provided or paid for by the Employer.

- (a) (i) A 45-kilometer radius free zone from the Geodetic Monument or around any place in which Employees are temporarily domiciled by the Employer shall be established.
No transportation or travel allowance shall be applicable within the free zone. [Subject to **Clause I-4.02(a)(ii)**]
- (ii) Notwithstanding the foregoing, on major construction projects located within the free zone, around the Geodetic Monument, but beyond the city bus transportation system of those cities, where it is expected that the total construction workforce will exceed 500, the affected Parties shall meet to discuss the viability of implementing a system of providing transportation to the site. The Parties shall consider such considerations as climate, seasons, road capacity,

other projects and industries using the same corridors, workforce curves, and site infrastructure.

- (iii) The time in transit on buses between the site and the camp shall be determined by representatives of the Building Trades of Alberta and of the Coordinating Committee of Registered Employers' Organizations, based on an average during a reference week of 5 test runs each way, conducted coincident with the times when Employees are in transit. This determination should be carried out twice per year, with any adjustment resulting from a determination applicable until the next determination. Employees shall be paid an allowance for time regularly and routinely in excess of 45 minutes each way, for travel within the applicable free zone. The allowance shall be calculated on the regular straight time base rate of each Employee. The allowance will be paid only to Employee who ride on the provided buses, and only for the days on which they ride the buses.
- (iv) It is agreed that if a major petroleum/petro-chemical project is undertaken in the area south of Redwater but north of the free zone such project will be deemed to be included within the free zone.

- (b) For projects beyond the 45-kilometer free zone for which daily travel is required, the Employer will have the following options;
 - (i) to provide transportation and pay travel allowance, or
 - (ii) reimburse the Employees, as a vehicle allowance, at the rate of (See Travel Allowance Memo at www.clra.org) per kilometer traveled, each way between the edge of the free zone and the project job site daily and pay travel allowance.

The Coordinating Committee and the Building Trades of Alberta shall examine, during January of each year of the Collective Agreement, the information published by Canada Revenue Agency respecting the vehicle allowance amounts that will not be treated as taxable income, and that will be permitted as business expenses for Employers. Such information normally establishes a maximum rate for the first 5,000 kilometers, and a lower rate for additional kilometers. The Coordinating Committee and the Building Trades of Alberta shall determine a rate that is midway between those two rates. The above vehicle allowance rate shall be adjusted, effective on the first pay period following May 1st of each year, to the rate so determined by the Coordinating Committee and the Building Trades of Alberta.

The travel allowance shall be calculated based on traveling at 80 kilometers per hour, at the Employee's applicable base rate, from the point where the edge of the 45-kilometer radius free zone intersects the road which takes the shortest, most appropriate route, to the project and return to the intersecting point.

Example:

A Journeyperson Member traveling in May 2019 to a project located 40 road kilometers from the edge of the free zone at 80 kilometers per hour each way would receive the following for each day worked:

<u>Travel Allowance:</u> 80 km @ 80 km per hour	
1 hour at base rate =	<u>Travel Allowance</u>
	+
<u>Vehicle Allowance:</u>	
80 km. @ \$0.65 cents per km. =	<u>Vehicle Allowance</u>
For a total of	<u>Total allowance</u>

Where the Employer provides the transportation the travel allowance would be paid but the vehicle allowance would not be payable.

- (c) Where the Employer is required to supply transportation, such transportation shall, at a minimum, be a safe, clean and modern means of transportation with sufficient seating for each person allowing adequate comfort for adults. When the size of the crew is such that the capacity of a coach-type bus is required, such bus transportation will be provided. Pick up points shall be mutually agreed upon.
- (d) Employees who are transported to a job site but who refuse to start work at the prescribed time due to a picket line or other form of labour relations dispute will not be paid transportation or travel allowance for that day.
- (e) When the transportation provided by the Employer for the conveyance of Employees is delayed by circumstances that are reasonably within the control of the Employer or the bussing company, the Employees shall be paid for all such time in excess of 15 minutes beyond the scheduled departure time, up to a limit of 2 hours at the applicable straight time rate.
- (f) If an Employee is required by the Employer to move from one job to another during working hours, the Employer shall provide the transportation or pay vehicle allowance at the rate of (See Travel Allowance Memo at www.clra.org)—per kilometer traveled if the Employee uses their own vehicle. The Employee shall not suffer any loss of pay as a result of transferring between projects during working hours.
- (g) Employees required to travel out of a city or town to another job after working a shift, and before an 8-hour break occurs, shall be paid for all time traveled at the rate of time and one-half the normal rate. If still traveling the following day, the Employee shall be paid the normal rate for time traveled during the regular working day only.
- (h) When an Employee is being paid subsistence allowance in accordance with

Clause I-4.05(a)(iii) or I-4.05(b)(iii), and when there is no accommodation available within 45 kilometers of the project on which the Employee is engaged, the Employer shall determine the location of the nearest available suitable accommodation, and shall determine the number of road kilometers beyond a 45 kilometer radius of the project that would be required to travel each way from the nearest available suitable accommodation, and shall calculate the travel allowance in accordance with the above provisions. In the event suitable accommodation within a 45-kilometer radius of the project becomes available, the payment of the travel allowance will cease.

Initial and Return Transportation to Remote Sites

- I-4.03** (a) Employees directed or dispatched to work sites located beyond a radius where daily commuting allowance under **Clause I-4.02(b)** would apply shall be paid travel allowance for initial travel and transportation to the project and return subject to the conditions in **Clause I-4.03(c)** below, based upon a radius from the Geodetic Monument, as applicable, as follows: **(See Travel Allowance Memo at www.clra.org)**
- (i) up to 200 kilometers - \$Amount each way.
 - (ii) 200 kilometers to 300 kilometers - \$Amount each way
 - (iii) 300 kilometers to 375 kilometers - \$Amount each way.
 - (iv) over 375 kilometers to 475 kilometers - \$Amount each way or actual airfare if suitable proof of air transport is provided to the Employer.
 - (v) over 475 kilometers - as mutually agreed between the Parties to this Collective Agreement to a maximum of \$Amount each way or air fare inclusive of taxes in the event this is the most practical method of accessing the project/jobsite.
- (b) The Initial and Return Transportation Allowances set out herein shall be subject to review in January of each year of the Collective Agreement. If there is an adjustment in the vehicle allowance, pursuant to **Clause I-4.02(b)**, each allowance amount shall be adjusted by the same percentage adjustment as the vehicle allowance adjustment, effective the first pay period following May 1st of the respective year. For example, if for 2020, the vehicle allowance is increased by 4%, each allowance shall be increased by 4%, rounded to the nearest dollar, and effective on the first pay period following May 1st, 2020.
- (c) When transportation is provided by the Employer by way of air, bus, or other acceptable surface transportation, prior to the commencement and following the conclusion of a work cycle [being scheduled days of work for which there is no more than a 1 day of rest scheduled within consecutive scheduled days], an Employee, at the time of dispatch, will be allowed to elect to use the such Employer provided transportation or to receive Collective Agreement initial/return/rotation allowances. Buses must comply with **Clause I-4.02(c)**.
- (i) An Employee who has elected Collective Agreement initial/return/rotation allowances will no longer be paid any such

- payments not yet received if transportation is established and the Employee elects to use it. Such an Employee will not be required to return payments received to that point.
- (ii) An Employee who has elected Collective Agreement initial/return/rotation allowances and who is found using Employer provided transportation will become disentitled to further Collective Agreement initial/return/rotation allowances, as one consequence.
 - (iii) If a person who elects Collective Agreement initial/return/rotation allowances uses Employer provided transportation for their initial trip that person will not receive the initial allowance payment. This circumstance will not be a violation as discussed in the previous point.
 - (iv) Regulations shall be established for the use of Employer provided transportation governing behaviour and the use of, e.g., alcohol, tobacco and other substances.
 - (v) Notwithstanding the foregoing, an Employee who has elected to use Employer provided transportation and who is hired, laid off, or terminated on a day when such transportation is not available shall be reimbursed the cost of a one-way commercial bus ticket to the Geodetic Monument, and transportation from the site to the nearest commercial bus terminal, or equivalent taxi fare.
- (d) An Employee will qualify for, and receive with the next regular pay, transportation allowance to the job site after being employed at the site for 15 calendar days.
- (i) If the Employee remains on the job until completion of 30 calendar days, the Employee shall qualify for return transportation allowance to be paid with their final pay at the subject site.
 - (ii) If, prior to having qualified for either transportation allowance, the Employee is laid off, or the job is completed, or the Employee is transferred to a different work site which is outside the area for which the transportation allowance was to apply, that Employee will be paid any outstanding transportation allowance(s) with their next regular pay.
 - (iii) If the Employee is transferred to a different work site that is within the area to which the transportation allowance was to apply, the Employee's employment on that different work site shall be deemed to be a continuation of employment on the original work site for the purposes of accumulation of entitlement to transportation allowances and rotational leave.

Rotational Leave

- I-4.04** (a) On jobs located beyond a 300-kilometer radius to a maximum of 475 kilometers from the Geodetic Monument, the Employer shall:
- (i) Pay an allowance of **(See Travel Allowance Memo at www.clra.org)** after 35 calendar days of employment on the job and thereafter for each subsequent 35 calendar days of employment on the job.

- Where the Employee accepts Employer supplied transportation the Employee shall not be entitled to the above allowance.
- (ii) Allow Employees 5 working days leave after each 35 calendar days of employment on the job.
- (b) On jobs located beyond a 475-kilometer radius from the Geodetic Monument, the Employer shall:
- (i) Provide a negotiated transportation allowance, not to exceed scheduled airline air fare where scheduled air service is available or pay an allowance of (See Travel Allowance Memo at www.clra.org) where airline service is not available, after 35 calendar days of employment on the job and thereafter for each subsequent 35 calendar days of employment on the job.
 - (ii) Allow Employees 5 working days leave after each 35 calendar days of employment on the job.
- (c) The Rotational Leave Allowances set out herein shall be subject to review in January of each year of the Collective Agreement. If there is an adjustment in the vehicle allowance, pursuant to **Clause I-4.02(b)(ii)** the allowance amount shall be adjusted by the same percentage adjustment as the vehicle allowance adjustment, effective the first pay period following May 1st of the respective year. For example, if for 2020, the vehicle allowance is increased by 4%, the allowance shall be increased by 4%, rounded to the nearest dollar, and effective on the first pay period following the 1st of May 2020.
- (d) It is further understood and agreed that the above-described trips be on a rotation basis and at no time more than 25% of the working force shall be on such working day leave.
- (e) Where the Employer supplies transportation the Employee shall not be entitled to the above allowances, subject to the following.
- (i) For a project on which the 14&7 cycle applies and transportation is provided, no allowance will be paid nor leave permitted. If no transportation is provided leave shall be granted subject to **Clause I-4.04(d)** and the allowance shall be paid.
 - (ii) For a project on which a 10&4 cycle applies and transportation is provided, leave will be granted subject to **Clause I-4.04(d)** and no allowance shall be paid. If no transportation is provided, leave shall be granted subject to **Clause I-4.04(d)** and the allowance shall be paid.

Accommodation, Room, and Board

- I-4.05** (a) Applicable within a 475-kilometer radius of the centre of the Geodetic Monument [but excluding National Parks].

When an Employee is directed or dispatched to work on an out-of-town job,

the Employer will provide:

- (i) camp accommodation, which shall be available 7 days per week; or
- (ii) mutually agreed room and board; or
- (iii) for each day worked, reimbursement toward the expense of the Employee's board and lodging, and any goods and services tax paid by the Employee in the purchase of board and lodging, by way of a subsistence allowance in the amount of (See Travel Allowance Memo at www.clra.org) per day throughout the Province of Alberta except for subsistence rates established for specific communities and regions as posted at www.clra.org.
- (iv) On a project/jobsite located over 250-kilometer radius from the Geodetic Monument, 1 additional day's subsistence shall be paid for the use of accommodation for the night following the last day worked, provided that the Employee presents a bona-fide commercial receipt to their Employer for each occasion the accommodation is used. Where the Employer or the Employer's client is providing a free bus trip back to the city on the same day as the last shift of the week, this provision shall not be applicable.

Board and room will be supplied, or the daily expense allowance will be paid for any Statutory Holiday which falls on a scheduled workday other than a first or last day of a scheduled shift provided the Employee reports for work on the work day immediately preceding and following the Statutory Holiday.

- (b) Applicable beyond a 475-kilometer radius of the Geodetic Monument [excluding National Parks and Northwest Territories].

When an Employee is directed or dispatched to work on an out-of-town job which will last at least 5 days, the Employer will provide, on a 7 days per week basis:

- (i) camp accommodation; or
- (ii) mutually agreed room and board; or
- (iii) reimbursement toward the expense of the Employee's board and lodging, and any goods and services tax paid by the Employee in the purchase of board and lodging, by way of a subsistence allowance in the amount of (See Travel Allowance Memo at www.clra.org) per day.
- (iv) The Employee shall be provided with camp accommodation if available or 1 additional day's subsistence for the use of accommodation for the night following the last day worked, provided that the Employee presents a bona-fide commercial receipt to their Employer for each occasion the accommodation is used. Where the Employer or the Employer's client is providing return transportation on the same day as the last shift of the week, this provision shall not be applicable.
- (v) Employees failing to report for work on the workday immediately preceding and following a weekend or Statutory Holiday will

receive the above for days worked only.

- (c) In the event that any difference arises respecting the adequacy of accommodation provided by the Employer pursuant to **Clause I-4.05(a)(ii) or Clause I-4.05(b)(ii)** above, the difference shall be referred to a balanced committee of appointees of the Building Trades of Alberta and the Coordinating Committee of Registered Employers' Organizations, which committee shall make a final and binding decision within 5 days from the date of referral.
- (d) The Parties agree that wherever practical and workable in all the circumstances of the project, camp accommodation is preferable to the provision of room and board, and that the provision of room and board is preferable to the payment of subsistence allowance. However, any of these three options will satisfy the Employer's obligations pursuant to this Article.
- (e) (i) In certain situations, Employees may be dispatched or directed to work on projects which are in an area where the cost of available suitable single room accommodation and/or meals may be in excess of the daily rate of subsistence set out in this Article. In such a case, the Employer shall provide one of the following options:
 - (1) provide suitable room and board; or
 - (2) directly pick up the cost of the room and pay a meal allowance to be determined as is set out in this Article; or
 - (3) the subsistence allowance shall be reviewed and, if necessary, adjusted by the following procedure:
 - (I) Either the subsistence allowance may be adjusted by mutual consent between the Employer and the Union, or the Business Manager of the Union may request that the Executive Director of the Building Trades of Alberta issue a formal written request to the Coordinating Committee of Registered Employers' Organization that a Subsistence Review Committee be established.
 - (II) Alternatively, an Employer may request that the Coordinating Committee of Registered Employers' Organizations issue a formal written request to the Executive Director of the Building Trades of Alberta that a Subsistence Review Committee be established. Upon formal written request the Subsistence Review Committee shall meet within 5 working days of such request.
- (ii) The Subsistence Review Committee will consist of:
 - (1) 1 representative appointed by the Building Trades of Alberta;
 - (2) 1 representative appointed by the Coordinating Committee of Registered Employers' Organizations;

- (3) 1 representative appointed by the National Maintenance Council; and
- (4) 1 representative appointed by the Boilermaker Contractors Association on behalf of Contractors signatory to the National Maintenance Agreement and/or the General Presidents Agreement.

Appointees shall not be directly involved with the issue at hand.

The Subsistence Review Committee will undertake such investigation as is necessary to determine whether the allowance paid will allow an Employee to purchase available accommodation and 3 meals per day in the community or communities where Employees will be domiciled. If the majority of the Committee determines that the allowance is insufficient to purchase such lodging and meals the Committee shall determine the amount by which the subsistence allowance shall be adjusted. A decision of the Committee as to whether the allowance is sufficient or whether a specified adjustment is necessary shall be final and binding provided that the majority of the Committee mutually agree with the resolve. Any such mutually agreed upon decision shall be issued within 5 days from the date of referral, or such longer period as may be agreed by the Coordinating Committee and the Building Trades of Alberta.

- (iii) In the event the Committee fails to make the required determination or determinations within the period allowed, the meal and lodging costs ascertained by the Committee shall be referred, together with such other relevant evidence and argument as may be submitted by the Parties, to an Umpire who shall be appointed within 5 days in accordance with the provisions of **Article 9**. The Umpire shall render a final and binding decision as to whether the subsistence allowance is sufficient to allow an Employee to purchase accommodation and meals in the subject community or communities, and if it is not the amount by which the allowance should be adjusted to afford the purchase of available lodging and meals. The decision of the Umpire shall be rendered within 5 full days of the Umpire's appointment, or such longer period as may be agreed by the Coordinating Committee and the Building Trades of Alberta. The decision of the Umpire shall have the same binding effect and shall be subject to the same limited review as a decision of an Arbitrator in grievance proceedings. The fees and disbursements of the Umpire shall be borne equally by the Coordinating Committee and the referring Union.
- (iv) The Subsistence Review Committee and/or the Umpire shall enter into a review when determining subsistence costs and in order to come to the conclusions that are necessary to carry out the objects

of this Clause some guidelines are included;

- (1) In the appropriate case the ability to decide on whether an increase in subsistence allowance shall be made retroactively to the date the matter was submitted to the Subsistence Review Committee.
- (2) To determine seasonal adjustments due to tourism, availability of rooms, etc. which may affect the rate of subsistence over the entire course of a job; i.e., an increase in costs during the tourism season followed by a decrease at the end of tourism season or some other such situation.
- (3) Determine an appropriate accommodation cost based on what hotel rooms are available, how many such rooms are available, what hotels/motels to look at.
- (4) The cost of meals based upon the range of standard camp meals routinely served in a camp pursuant to the Camp Rules, which are adopted in this Collective Agreement, over an average weekly period.
- (5) Such other reasonable and ancillary powers as may be necessary to achieve the purpose of this Clause.

There shall be no more than 1 reference of these matters to a Subsistence Review Committee Umpire with respect to any community in any calendar year unless it can be shown that there has been a material change of circumstances within that calendar year. Such a review within the calendar year may be made by either the Employer or the Union.

(f) Applicable to all Regions

- (i) Employees unable to work due to legitimate illness, material shortage, job-site conditions, or inclement weather, and for whom it is not practical to return to their respective primary Alberta residences, shall receive their board and room or daily allowance for those workdays that they were scheduled to work.
To be eligible for board and room or daily allowance in these circumstances the Employee must have been unable to return to their primary Alberta residence due to the medical, work, site or weather conditions.
In the event return to the Employee's primary Alberta residence becomes reasonably possible and prudent, the entitlement to subsistence allowance shall cease. It is expected that the circumstances to which this provision applies will be of short duration.
For the purposes of this Article, for an Employee who does not maintain a primary residence in Alberta, that Employee's primary Alberta residence shall be deemed to be Edmonton or Calgary, whichever is the nearest.
- (ii) If an Employee chooses to leave before the completion of the shift without the consent of the Employer, they will not be entitled to

subsistence allowance for that day [and may be subject to other disciplinary or corrective measures]. If an Employee chooses to leave before the completion of the shift with the consent of the Employer, they will be paid a full day's subsistence if at least half the shift is worked and half a day's subsistence if less than half a shift is worked.

- (iii) All camps must meet the specifications as set out in the Building Trades of Alberta and Construction Labour Relations, an Alberta Association 2018-2025 Camp Rules and Regulations, or any successor thereto.
- (iv) All grievances concerning a camp will be resolved through the grievance procedure provided in the Building Trades of Alberta and Construction Labour Relations, an Alberta Association 2018-2025 Camp Rules and Regulations.
- (v) Where an Employee is requested to change rooms or camp by the Employer or the client's designated camp manager during a work cycle, they will be paid 2 hours pay at the straight time basic hourly rate as full compensation for the time to move belongings.
- (vi) Should the request to move from one room to another come from authorized persons employed by the Camp Manager or the Client, the Employee must inform the Employer of the move by the following workday to be eligible for this payment.

and

**Operative Plasterers’ and Cement Masons’ International Association of the United States
And Canada, Local Union 222
(the “Union”)**

Whereas:

- 1) The Parties are committed to creating a safer, healthier workplace free of risks associated with alcohol and/or other drug use. Historical trends suggest meeting this objective will correlate to a reduction in workplace incidents.
- 2) The Parties intend to reduce redundant substance testing and related costs and to expedite access to participating worksites.
- 3) Alcohol and other drug work rules, such as the *Canadian Model for Providing a Safe Workplace: Alcohol and Drug Guidelines and Work Rule Version 6.0* (the “*Canadian Model*”), are more effective if they are implemented in such a way as to preserve the dignity and privacy of participant Employees.
- 4) Coordinating the exchange of sensitive information through a centralized third party provides greater control over the collection, use, disclosure, safeguards and storage of personal information.
- 5) Retaining the continuity of information through a centralized third party is necessary in order to reduce redundant testing, expedite access to worksites and provide seamless after-care support to affected Employees.
- 6) Comprehensive professional third-party case administration provides for the effective delivery of education, compliance and, if necessary, accommodation strategies. Professional treatment, education, follow-up and after-care frameworks support affected Employees in maintaining compliance with the *Canadian Model* and, if necessary, recovering from an addiction and/or dependency to alcohol or other drugs.
- 7) In 2004, the Department of Health and Human Services Substance Abuse and Mental Health Services Administration and, in 2008, leading experts in direct consultation, confirmed that laboratory oral fluid testing is accurate, reliable and appropriate for unannounced testing. Due to the shorter detection windows than found in urine testing, it was found oral fluid testing is not appropriate for follow-up testing and not appropriate for testing where prior notice of the test is given.
- 8) Several arbitration cases have accepted the validity of laboratory oral fluid testing but in none of those cases was the laboratory oral fluid testing itself the subject of challenge. Accordingly, at the time of signing this Collective Agreement the validity of laboratory oral fluid testing has yet to be established in Canadian law.

Now therefore, it is Agreed between the Parties hereto that:

- (a) Subject to (b) and (c) below, the Parties support the implementation of the Rapid Site Access Program and the Union and Employer agree to be bound by and comply with the *Rapid Site Access Program Procedural Rules*, as amended from time to time.
- (b) The Union's agreement in (a) above is subject to the adoption of laboratory based oral fluid testing for the random component of drug testing administered by the Rapid Site Access Program. However, in the event laboratory oral fluid testing is successfully challenged in law the Union agrees urine-based testing shall apply.
- (c) Subject to (b) above, where the Union does not agree to an amendment to the *Rapid Site Access Program Procedural Rules*, the Union may opt out of agreeing to said amendment by giving notice in writing to the registered Employers' organization and the Rapid Site Access Administrative Committee.
- (d) For Industrial work, the Employer contributions shall be established by the Association and may be changed by the Board of Directors of the Association and notice to an Employer and the Union from the Association respecting such amendment shall be sufficient. RSAP contributions shall be forwarded to the Association. These contributions shall be used by the Association to provide the funding, among other things, for the third-party providers who are responsible for delivering the services in respect to the Rapid Site Access Program.
- (e) This Letter of Understanding shall be attached to, and form part of the Collective Agreement entered between the Parties.

Whereas:

An individual must be referred to a Substance Abuse Expert (SAE) following a failure to comply with the *Canadian Model for Providing a Safe Workplace: Alcohol and Drug Guidelines and Work Rule Version 6.0 (the “Canadian Model”)*. Once the individual is assessed by a SAE, recommendations are prepared and disclosed for the purpose of establishing expectations in accordance with the SAE’s recommendations, entering into a post assessment agreement and supporting compliance with prescribed aftercare.

Pursuant to the Union’s bylaws, after the Union becomes aware a member has violated the Canadian Model excluding required site access testing. The Member must be assessed by a SAE and comply with the resulting recommendations as a condition of being eligible for future dispatches.

If the union is aware of a non-negative test result or a refusal on a site access test, the union would internally manage the situation with their member and may impose a time limited no dispatch or provide assistance under the EFAP or health and welfare program.

There are advantages to referring SAE recommendations to qualified third party professionals for administration on behalf of the Parties. Third party professionals are positioned to offer a higher level of:

- a) confidentiality,
- b) consistency, and
- c) expertise.

Contracting the administration of SAE recommendations to third party professionals is expected to be more effective in meeting the safety objectives contained in the Canadian Model and increase the quality of service afforded to affected individuals.

Now therefore, it is Agreed between the Parties hereto that:

- 1) SAE recommendations arising from Employer administered A&D tests conducted pursuant to the Canadian Model and arising from those who violate Article 3 of the Canadian Model shall be referred to and administered by a third-party administrator. Such SAE recommendations shall apply to employment and prospective employment in respect to any collective agreement for which the Union is signatory. SAE recommendations shall be shared with an Employer only if they are in respect to a current Employee, one that has contravened **Article 3** of the Canadian Model¹ while in the employ of that Employer.
- 2) Third Party Service providers will keep all information in accordance with applicable privacy laws.
- 3) The Association will provide the funding to the third-party providers who are responsible for administering SAE recommendations.
- 4) This Letter of Understanding shall be attached to, and form part of the Collective Agreement entered between the Parties.

ARTICLE II-4: TRANSPORTATION, ACCOMMODATION, LOCAL RESIDENTS

Transportation and Accommodation

II-4.01 A 75-kilometer free zone shall be established around the center of every city, town or village in which Employees reside and around every place where accommodation is provided and/or paid for by the Employer. This zone shall apply to all persons covered by this Collective Agreement except local residents.

The following conditions shall apply to all Employees engaged in non-Industrial work, except local residents, within the following radial zones:

Zone 1 Within the Free Zones as noted above, all Employees shall be responsible for their own transportation to and from the work site except that where, on remote job sites, conditions are such that private and public transportation is not available and the work area is beyond reasonable walking distance, then the Employer shall provide transportation.

Zone 2 The area lying within the next 100 kilometers beyond the boundary of the free zones established above, is Zone 2. For any job site situated within this area the Employer shall supply transportation to and from the work site to the place of accommodation or established central pick-up points, or, at their option, expressed by the Employer

in writing, pay vehicle allowance at the rate of (See Travel Allowance Memo at www.clra.org) per kilometer from the edge of the free zone, to the job and back, to each Employee who, by arrangement with the Employer uses their own vehicle to provide transportation outside the free zone.

At the Employer's option, camp or other board and room accommodations as provided for in Zone 3, may be provided in this zone for each day worked.

Zone 3

The area lying within the next 100 kilometers beyond the boundary of Zone 2 as established above, is Zone 3. For any job site situated within this area, the Employer shall provide at their option for each day worked:

or
- (ii) reasonable room and board;
or
- (iii) agreed subsistence allowance.

Zone 5

The area lying beyond the outer boundary of Zone 4, or areas within the above noted zones which are inaccessible by automobile, is Zone 5. On jobs within Zone 5 only, the Employer will allow a return trip to the closest Geodetic Monument after each 60 days of employment on the project and shall grant leave from work for a maximum period of 5 calendar days. Such trips shall be paid 1 way upon leaving the job site and reimbursed for the return upon reporting to the job. The rate of reimbursement shall be the equivalent train, bus or air fare only as appropriate.

In the event the Employer and the Union cannot quickly come to an agreement respecting the amount of subsistence that is appropriate for any given project or area, the subsistence allowance shall be based on an analysis by a joint committee of representatives of the

Employer and representatives of the Employees, using average room costs in the subject area [on the basis of 2 persons per room], and average costs of meals using predetermined example menu items.

- II-4.02**
- (a) Employees unable to work due to legitimate illness, material shortage, job-site conditions, or inclement weather, and for whom it is not practical to return to their respective primary Alberta residences, shall receive their board and room or daily allowance for those workdays that they were scheduled to work.

 - (i) To be eligible for board and room or daily allowance in these circumstances the Employee must have been unable to return to their primary Alberta residence due to the medical, work, site or weather conditions.
 - (ii) In the event return to the Employee's primary Alberta residence becomes reasonably possible and prudent, the entitlement to subsistence allowance shall cease.
 - (iii) It is expected that circumstances to which this provision applies will be of short duration
 - (iv) For the purposes of this Clause, for an Employee who does not maintain a primary residence in Alberta, that Employee's primary Alberta residence shall be deemed to be the nearest Geodetic Monument.
 - (b) If an Employee chooses to leave before the completion of the shift without the consent of the Employer, they will not be entitled to subsistence allowance for that day [and may be subject to other disciplinary or corrective measures]. If an Employee chooses to leave before the completion of the shift with the consent of the Employer, they will be paid a full day's subsistence if at least ½ the shift is worked and ½ a day's subsistence if less than ½ a shift is worked.
 - (c) Effect of unauthorized absence on Room and Board Entitlement.

 - (i) When an Employee fails to report when work is available on the working day immediately preceding or following bad weather or recognized holidays other than for unavoidable causes, the Employee shall forfeit room and board for such absenteeism and for the bad weather days or recognized holidays. When Saturday is not a working day and an Employee fails to report to work on Friday when work is available, the Employee shall forfeit room and board for Friday, Saturday and Sunday. When Sunday is not a working day and an Employee fails to report to work on Monday when work is available, the Employee shall forfeit room and board for Sunday and Monday. An Employee shall also forfeit room and board for absenteeism on any working day for other than unavoidable causes.
 - (ii) Unavoidable cause shall be deemed any illness or injury other than caused by consumption of alcohol and/or illicit drugs. The

Employer may request proof of illness or injury by way of a letter from a medical doctor.

- (iii) Where the Employer's costs are fixed [as for Camp accommodation or long-term room leases] the Employee shall not be back charged for such fixed costs, but, where subsistence allowance is paid then the Employee shall not be paid for days missed as detailed above.

II-4.03

- (a) Where the transportation prescribed in **Clause II-04.01** is not provided by the Employer to an Employee employed pursuant to this Collective Agreement, the Employer shall pay to the Employee a daily vehicle allowance, being the product of twice the distance in kilometers from the edge of the relevant free zone to the subject project times \$0.52 per kilometer.
- (b) The Coordinating Committee and the Building Trades of Alberta shall examine, during January of each year of the Collective Agreement, the information published by Canada Revenue Agency respecting the vehicle allowance amounts that will not be treated as taxable income, and that will be permitted as business expenses for Employers. Such information normally establishes a maximum rate for the first 5,000 kilometers, and a lower rate for additional kilometers. The Coordinating Committee and the Building Trades of Alberta shall determine a rate that is midway between those two rates. The above vehicle allowance rate shall be adjusted, effective on the first pay period following May 1st of each year, to the rate so determined by the Coordinating Committee and the Building Trades of Alberta.
- (c) The travel allowance shall be calculated based on traveling at 80 kilometers per hour, at the Employee's applicable base rate, from the point where the edge of the 45-kilometer radius free zone intersects the road which takes the shortest, most appropriate route, to the project and return to the intersecting point.

Example:

A Journeyperson Member traveling in May 2019 to a project located 40 road kilometers from the edge of the free zone at 80 kilometers per hour each way would receive the following for each day worked:

Travel Allowance: 80 km @ 80 km per hour
1 hour at base rate =

Travel Allowance

+

Vehicle Allowance:
80 km. @ \$0.65 cents per km. =

Vehicle Allowance

For a total of

Daily Allowance

Where the Employer provides the transportation the travel allowance would be paid but the vehicle allowance would not be payable.

- II-4.04** The Employee shall be provided with camp accommodation if available or 1 additional day's subsistence for the use of accommodation for the night following the last day worked, provided that the Employee presents a bona-fide commercial receipt to their Employer for each occasion the accommodation is used. Where the Employer or the Employer's client is providing return transportation on the same day as the last shift of the week, this provision shall not be applicable.

Local Residents

- II-4.05** The parties agree that the early participation of qualified Local Resident Employees in work undertaken under this Collective Agreement is most desirable and will be strongly promoted.
- II-4.06** A Local Resident Employee shall be defined as a Union Member who has maintained their domicile within a 75-kilometer radius of a job site, for a minimum of 6 months.
- II-4.07** A Local Resident Employee shall not be entitled to the subsistence pay, rotational leave & expenses, and initial and return travel provisions of the Collective Agreement.
- II-4.08** The above **Clause** shall not apply to any project for which daily travel applies from Edmonton or Calgary.
- II-4.09** Where a Camp Kitchen is established and where all workers, generally, on the project who are not Local Residents attend at the Camp Kitchen to eat their lunches, a Local Resident Employee shall be provided the same noon meal arrangements without cost to the Employee. In those instances where bagged lunches are provided to camp residents and hot soup is delivered to the jobsite, local residents shall be entitled to receive hot soup.
- II-4.10** Where a Local Resident Employee is required to work overtime, they shall be entitled to overtime meals in accordance with this **Clause II-3.07**.

Letter of Intent RE: JOINT INDEPENDENT ALCOHOL & DRUG PROGRAM

-Between-

Construction Labour Relations – An Alberta Association

-and-

[Building Trades Unions]

(the “Parties”)

Whereas the Parties wish to establish an independent, jointly governed body to review and administer the Alcohol and Drug Program (the Program);

Now therefore it is agreed between the Parties that they shall:

1. Establish a Steering Committee responsible for creating a new *independent body*.
2. The Steering Committee will develop the terms of reference, shared funding model, appointment process, communications strategy, and timelines for establishing the *independent body*, and any other matters it deems necessary in its development.
3. The Steering Committee will establish a process for the Parties to review, provide feedback and approve the new governance structure prior to implementation.
4. The *independent body* will be responsible for reviewing, implementing and managing/administering the Alcohol & Drug Program. The *independent body* will have a joint governance structure made up of equal representatives appointed by the BTU and CLRA.
5. The new joint approach to administering the Program will create efficiencies in service delivery aimed at reducing costs and improving outcomes. The Parties will share in the success of the Program and share in funding the Program (50/50 split).
6. As the Program matures, increased efficiencies and reduced costs will be passed on as savings to both Parties, as determined by the *Independent Body*.

Letter of Understanding A-#2: Referral for Case Managed Aftercare

by and between

**Construction Labour Relations – An Alberta Association
Operative Plasterers (Provincial) Trade Division**
[the “Association”]

and

**Operative Plasterers and Cement Masons International Association of the United States and
Canada, Local Union 222**
[hereinafter referred to as the “Union”]

Whereas:

An individual must be referred to a Substance Abuse Expert following a failure to comply with the *Canadian Model for Providing a Safe Workplace: Alcohol and Drug Guidelines and Work Rule* [the “Canadian Model”]. Once the individual is assessed by a Substance Abuse Expert, recommendations are prepared and disclosed for the purpose of establishing expectations in accordance with the substance abuse expert’s recommendations, entering into a post assessment agreement and supporting compliance with prescribed aftercare.

Pursuant to the Union’s bylaws, after the Union becomes aware a Member has violated the Canadian Model, excluding required site access testing. The Member must be assessed by a Substance Abuse Expert and comply with the resulting recommendations as a condition of being eligible for future dispatches.

If the union is aware of a non-negative test result or a refusal on a site access test, the union would internally manage the situation with their member and may impose a time limited no dispatch or provide assistance under the EFAP or health and welfare program.

There are advantages to referring Substance Abuse Expert recommendations to qualified third party professionals for administration on behalf of the Parties. Third party professionals are positioned to offer a higher level of:

- a) confidentiality,
- b) consistency, and
- c) expertise.

Contracting the administration of Substance Abuse Expert recommendations to third party professionals is expected to be more effective in meeting the safety objectives contained in the Canadian Model and increase the quality of service afforded to affected individuals.

Now therefore, it is Agreed between the Parties hereto that:

- 1)** Substance Abuse Expert recommendations arising from contractor administered A&D tests conducted pursuant to the Canadian Model and arising from those who violate Article 3 of the Canadian Model shall be referred to and administered by the RSAP Third Party Administrator. Such Substance Abuse Expert recommendations shall apply to employment and prospective employment in respect to any collective agreement for which the Union is signatory.

Substance Abuse Expert recommendations shall be shared with an Employer only if they are in respect to a current Employee, one that has contravened Article 3 of the Canadian Model while in the employ of that Employer.

- 2)** Third Party Service providers will keep all information in accordance with applicable privacy laws.
- 3)** The Association will provide funding to the third party providers who are responsible for administering substance abuse expert recommendations.
- 4)** This Letter of Understanding shall be attached to and form part of the Collective Agreement entered into between the Parties.

Letter of Intent RE: Apprenticeship Development Initiative (ADI)

-Between-

**Construction Labour Relations – An Alberta Association
Operative Plasterers (Provincial) Trade Division
(the Trade Division)**

-and-

**Operative Plasterers’ and Cement Masons’ International Association of the United States and
Canada, Local Union 222
(the Union)**

Whereas the Trade Division and the Union are parties to a Collective Agreement pursuant to registration certificate #47; and,

Whereas the Parties wish to ensure that the unionized construction industry attracts and retains skilled and highly trained apprentices,

Now therefore it is agreed between the Parties that they shall develop and promote the Operative Plasterers *Apprenticeship Development Initiative (ADI)* as follows:

1. This initiative will be utilized to attract and retain apprentices by providing an opportunity for 1st year apprentices to participate in additional general construction and trade specific training courses through their union training facilities.
2. The union training facilities will provide additional training to the 1st year apprentice, which will allow for additional hands-on training as established by the training facility in consultation with the Trade Division.
3. 1st year apprentice pension contributions will be re-allocated to the benefit schedule as an enhanced training contribution in addition to existing training contributions. The re-allocation will allow for funding to be provided to the apprentice when participating in additional training through the union training facilities and technical training through post-secondary learning institutions.
4. This additional funding may be used to provide for allowance payments and/or bursaries for apprentices participating in the “Apprenticeship Development Initiative” program. Funding provides for the additional training allowances and/or bursaries and should not exceed 80% of the total training fund contributions. The remaining contribution amounts will be retained in the training fund to compensate for the costs of administration of this initiative.
5. Allowances would only be provided upon completion of the additional training provided through the union training facilities and as per an established training schedule. Bursaries could also be available upon completion of the 1st year apprentice technical training, through a government approved post-secondary institution or approved equivalent training facility.

Training Schedule (Example)

	Allowances	Financial Assumptions
